3. MENA arthroplasty solutions : primary to hip & knee arthroplasty course : Acibadem university, Istanbul, Turkey : 2015

4. “TKA primary and revision “Instructinal couse –stolzalpe,Austria : 2015

5. AO Trauma Course – fragility fractures and orthogeriatrics – Tehran- Iran : 2015

6. 4th Biennial international congress of Iranian of knee surgery,arthroscopy& sports traumatology (ISKAST) 2016,Tehran,Iran

### **Workshops:**

1. Workshop for blood and blood component handling & haemovigilance system(for physicians):Alzahra hospital-Isfahan-Iran
2. Basic life support , advanced life support : Alzahra hospital : Isfahan – Iran
3. IC primary TKA with hands on workshops : Isfahan – Iran 2014

### **Thesis for:**

General physician:

Determination of lipoprotein (a)level in acute coronary syndromes.

Supervisor: Dr. H. salehi

Orthopedic surgeon:

The role of fibular fixation in the treatment of tibia diaphysis distal third fractures.

Supervisor: Dr. alireza rouhani

### **Research and publications:**

1. Mohammad Ali Tahririan; Mehdi Motifard; Ali Omidian; **Hossein Akbari Aghdam**; Amir Esmaeali.Relationship between bone mineral density and serum vitamin D with low energy hip and distal radius fractures:case-control study. Arch Bone Jt Surg. 2017; 5(1): 22-27.
2. Rouhani A, Elmi A, **Akbari Aghdam H**, Panahi F, Dokht Ghafari Y.The role of fibular fixation in the treatment of tibia diaphysis distal third fractures. Orthop Traumatol Surg Res. 2012 Dec;98(8):868-72.
3. Alireza Rouhani, Keyvan Aliyari Zonooz, **Hossein Akbari Aghdam**.An unusual cause of bilateral anterior houlder dislocation.case-report. Pak J Med Sci 2010;26(4):976-977
4. Alireza Sadeghpour, Reza Mansour, **Hossein Akbari Aghdam**.Comparison of trans patellar approach and medial parapatellar tendon approach in tibial intramedullary nailing for treatment of tibial fractures.JPMA 61:530; 2011.
5. A Sadeghpour, A Rouhani, MA Mohseni, OA Aghdam, M Goldust. Evaluation of surgical treatment of developmental dysplasia of hip for avascular necrosis of femoral head in children. Pakistan Journal of Biological Sciences; Faisalabad15.8 (2012): 391-4

Researchs:

1. Evaluation of early internal fixation complication in tibial fractures with concomitant compartmental syndrome using fasciotomy
2. The relationship between polymorphisms in COL1A1 gene promoter rs 1107946(G/T) and surgical reconstruction of anterior cruciate ligament injury

Thesis advisor:

1. Evaluation of surgical outcome of opponensplasty with extensor indicis proprius or flexor digitorum superficialis in patient with traumatic low median nerve palsy.
2. The comparative evaluation of surgical outcome using pin technique and screw technique with acromioclavicular joint dislocation
3. Infrapatellar branch of saphenous nerve injury in ACL Reconstruction with hamstring tendon autograft: Compare oblique versus vertical incision
4. Nondisplaced femoral neck fracture fixed by cannulated screw in patients older than 65 y: outcome study

1.

Membership:

Morbidity and mortality committee of Alzahra hospital, Isfahan, Iran 2015-continue

Member of research committee of orthopedic department of Isfahan medical university 2015- continue

**Academic award:**

Member of **elite institute** of Tabriz medical science university.

**Interests, activities:**

swimming, cycling, Mountaineering
