

## Uterus, endometrial malignancy template (Macroscopic description)

Patient name:

Pathology No:

### Clinical data:

Fresh specimen: *no/yes*

- 1<sup>st</sup> container:

Labeled as:

Specimen:

Ovary: *Absent/Present: Rt /unlabeled ---x---x--- cm; no macroscopic abnormality*

*Lt/ unlabeled ---x---x--- cm; no macroscopic abnormality*

Fallopian tube: *Absent/Present: Rt /unlabeled ---x---x--- cm; no macroscopic abnormality*

*Lt/ unlabeled ---x---x--- cm; no macroscopic abnormality*

Right parametrium radial diameter: -----cm

Left parametrium radial diameter: -----cm

Uterus: *Intact/Opened*

Serosal surface: *normal/abnormal*

Corpus length: *cm*

Diameter of fundus: *cm*

Diameter of Cervix: *cm*

Cervix length: *cm*

Vaginal cuff: *Absent/ present, length (cm):*

endocervical canal: *normal appearance/polyp/nabothian cyst/tumoral*

Site of tumor: *Ant/Post/Fundus/Isthmus*

Tumor greatest dimension: *mm*

Tumor appearance: *Exophytic/Irregular endometrium/ hemorrhagic/ necrotic*

Myometrial invasion: *No/Yes Max. depth of invasion \_\_mm / Thickness of adj. myometrium \_\_mm*

Isthmus involvement: *no/yes*

Cervical involvement: *no/yes*

Other uterine abnormality: *Polyp/Myoma*

- 2<sup>nd</sup> container:

Labeled as:

Omentum: *\_\_ x\_\_ x\_\_ mm / with or without involvement in gross*

- 3<sup>rd</sup> container:

Labeled as:

Lymph nodes: *Rt/ site / total number/ max diameter*

- 4<sup>th</sup> container:

Labeled as:

Lymph nodes: *Lt/ site / total number/ max diameter*

Block summary: Anterior Cervix: , Posterior Cervix: Anterior Lower Uterine Segment : , Posterior Lower Uterine Segment: , Rt parametrium: , Lt parametrium: , Tumor: , Non-Tumoral endometrium, , Right ovary: , Right fallopian tube: , Left ovary: , Left fallopian tube: , Rt pelvic nodes: , Lt pelvic nodes: , omentum:
