

Kidney non-tumor template (Macroscopic description)

Patient name:

Pathology no:

Clinical data:

Specimen(s):

Specimen integrity: *Intact, Moracellated (number of pieces)*

Specimen dimensions:

Dimensions of kidney:

Hilar structures: *dimension – occluded or patent*

Ureter:

Renal artery:

Renal vein:

Cortical surface: *normal – abnormal (descript)*

Cortical thickness:

Lesion(s): *site, dimension, description (infarct, cyst, abscess, hemorrhage)*

For cyst: configuration, wall thickness, content, presence of solid or papillary area

Renal pelvis: *normal – abnormal (descript)*

Calculi: *Absent - Present*

Lymph nodes: *Received – not received*
