

## Whipple Surgery (Macroscopic Description):

**Patient name:**

**Pathology no:**

\<sup>st</sup> container: labeled as:

**Anatomical structures:**

*Pancreas : ..... x ..... x ..... mm*

*Duodenum : ..... x ..... x ..... mm*

*Stomach : Absent / Present ..... x ..... x ..... mm*

*Common bile duct : ..... x ..... x ..... mm*

*Gallbladder : Absent / Present ..... x ..... x ..... mm*

*Portal vein : Absent / Present ..... x ..... mm*

**Other anatomical structure:**

**Macroscopic tumor site:** *Pancreas (head, body, tail, uncinated) / Duodenum / ampulla vater / CBD*

**Macroscopic tumor maximum dimension:**

**Macroscopic tumor description:** *exophytic, flat, solid, cystic, colour, texture, border*

**Relationship to ampulla:** *Intra-ampullary, Peri-ampullary, Mixed intra- & peri-ampullary or Distance to ampulla: ..... mm*

**Macroscopic distance of tumour to closest margin:**

*Posterior pancreatic margin: .... mm*

*Pancreatic transection margin: .... mm*

*Common bile duct margin: .... mm*

*Proximal/intestinal/gastric margin: .... mm*

*Distal intestinal margin: .... mm*

**Appearance of uninvolved pancreas:**

Υ<sup>nd</sup> container: labeled as:

**Lymph nodes:**

*Laterality:*

*Site:*

*Maximum size of nodes:*

*Number of nodes:*
