

Breast tumor template (Macroscopic description)

Patient name:

Pathology no:

Clinical data:

Fresh tissue received: *yes/no*

1st container:

Labeled as:

Specimen laterality: *Left/Right*

Specimen orientation: *Not orientated / Oriented; If orientated, list markers*

Specimen size: *__x__x__mm*

Skin: *Absent / present, Skin dimensions: __x__mm*

Skin abnormalities: Absent / Present (Ulceration / Satellite nodules / Other)

Nipple : Absent / Present, Nipple description : Normal / Paget's disease / Peau d'orange / Other

Macroscopically visible tumors: *Absent / Present, If present, record number of foci*

Tumor size: *....x....x....mm*

Tumor location:

Distance to nearest separate tumour foci: *.....mm, If > 1 tumor*

Min. macroscopic margin clearance: *... mm; Record distances of tumor to all margins <5mm, Specify margin*

Muscle: *Absent / Present*

- 2nd container:

Labeled as:

Sentinel lymph node: *site/ total number/ max diameter*

- 3rd container:

Labeled as:

Non-sentinel lymph node: *site/ total number/ max diameter*
